

32.203 Determining contract financing terms.

When the criteria in [32.202-1\(b\)](#) are met, the contracting officer may either specify the financing terms in the solicitation (see [32.204](#)) or permit each offeror to propose its own customary financing terms (see [32.205](#)). When the contracting officer has sufficient information on financing terms that are customary in the commercial marketplace for the item, those terms may be specified in the solicitation.
